

# SpamWall - How to release client emails

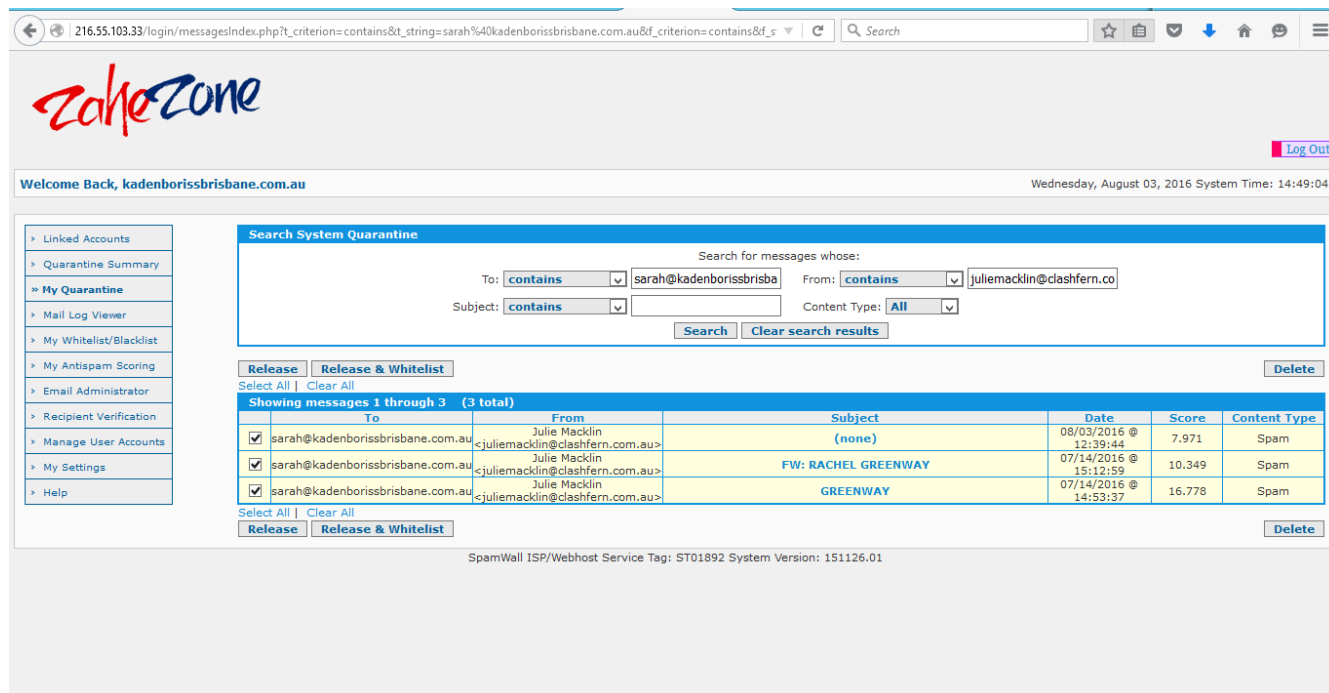

Log onto <http://spamwall.zahezone.com.au/login> using the details in PasswordState.

Select 'Linked Accounts'

Choose the Client/Domain

Then choose 'My Quarantine'

You can then search for messages to Release/Whitelist.

The screenshot shows the SpamWall web interface. The top navigation bar includes the 'zaheZone' logo and a 'Log Out' button. The main content area is titled 'Search System Quarantine' and contains a search form with fields for 'To', 'From', 'Subject', and 'Content Type'. Below the search form is a table of messages. The table has columns for 'To', 'From', 'Subject', 'Date', 'Score', and 'Content Type'. Three messages are listed, all from 'Julie Macklin' to 'sarah@kadenborissbrisbane.com.au'. The messages are marked as 'Spam' and have scores of 7.971, 10.349, and 16.778. The interface also includes a sidebar with links to 'Linked Accounts', 'Quarantine Summary', 'My Quarantine', 'Mail Log Viewer', 'My Whitelist/Blacklist', 'My Antispam Scoring', 'Email Administrator', 'Recipient Verification', 'Manage User Accounts', 'My Settings', and 'Help'. At the bottom, there is a footer with the text 'SpamWall ISP/Webhost Service Tag: ST01892 System Version: 151126.01'.
